Our motel is located on Main Street within walking distance of downtown, and restaurants. We have a bowling alley just across the street from us, and they also have bowling leagues. We are the moose viewing capital of Colorado, and we have a lot of wildlife, and birds in the area. We have an indoor pool in town that is only 5 blocks away, and they also have exercise equipment. We also have a medical clinic just down the street from us. We have many hiking trails, and fishing close by. Laramie, Wyoming is an hour away, and has the University of Wyoming and they have many museums. Ft. Collins, Colorado is 2 hours away, and is a very large town, and Denver, CO has many museums, and has an international airport. Description of Area: Tybee means "salt" to Native Americans, but the name of this low-key seaside resort now brings to mind words such as "sun", "surf" and "fun". Located 18 miles east of Savannah, this small barrier island boasts a wide, 3-mile long beach that's backed by sea oat-covered sand dunes and is perfect for sunbathing, people-watching and frolicking in the waves of the Atlantic Ocean. The island's south-end pier and pavilion is a splendid venue for strolling above the ocean, people watching and fishing.

Although vacationers are lured to Tybee mainly because of what it provides in the way of recreation and relaxation, those with a love of history won't be disappointed. Tybee offers: Fort Screven, The Tybee Island Lighthouse (dated 1773), an intriguing museum, and Fort Pulaski National Monument which is just west of the island on Hwy 80.

condominiums, and quaint inns and cottages, it's also a residential area stocked with its share of colorful characters. It's an atmosphere considerably more laid-back than that of glitzier, larger beach towns to the north and south.

Travel Time From NYC to Job Site: About 2 days by bus or 6 hours by plane.**Approximate Travel Cost:** \$250**Travel Mode:** Plane**Description of Business:** The history of the American Shangri-La, as Sun Valley is sometimes referred, is not too different from the magical village of legend. It all began in 1935, when Count Felix Schaffgotsch, under the hire of Union Pacific Railroad chairman Averell Harriman, set out in search of the perfect spot for a grand American resort.

Harriman was determined to build Sun Valley into a resort worthy of its breathtaking and majestic setting. "It is not enough to build a hotel and then mark with flags and signs the things you propose to do in time to come." Harriman was once noted as saying, "When you get to Sun Valley, your eyes should pop open. There isn't a single thing that I could wish for that hasn't been provided." Part of what he "wished for" included a timeless lodge complete with glass-enclosed pools, haute cuisine, impeccable service and nightly orchestra performances.

After just seven months of construction, Sun Valley opened to the public in the winter of 1936. The resort was an instant success. Local wildlife was seen sharing the mountain with European nobility and Hollywood royalty.

for Olympic training.

Unlike the Shangri-La of legend, Sun Valley welcomes visitors back year after year. The tradition of beauty and service, "roughing it in style" as Harriman called it, has become the tradition for families across the globe. So, don't be surprised if you catch a glimpse of a world champion as you carve your way down Bald Mountain. And just nod if you hear a familiar voice telling tall tales at the local watering hole. It's all part of the magic and mystique that has made Sun Valley the American Shangri-La.

Description of Area: Sun Valley is an affluent resort community in central Idaho adjacent to the city of Ketchum in Blaine County. Tourists from around the world enjoy its skiing, hiking, ice skating, trail riding, tennis, and more. The population was 1,427 at the 2000 census. Very few of its residents stay there year-round, with many having primary homes in Boise, Twin Falls, or out-of-state (with many from California and Washington). The elevation of Sun Valley (at the Lodge) is 5920 feet (1804 m) above sea level. The term Sun Valley is also used more generally to speak of the region surrounding the city, including the neighboring city of Ketchum and the valley area winding south to Hailey. The region has been home to the rich, famous, and powerful, including Mats Wilander, Walter Annenberg, Ernest Hemingway, Teresa Heinz Kerry, Demi Moore, Bruce Willis and Arnold Schwarzenegger.

Description of Area: Scargo Cafe is a very busy 100 seat restaurant located across the street from a summer theater that occasionally features some big name celebrities. We serve lunch and dinner (no breakfast) every day. It is a fun place to work, and we have US college students that return to work for us each year. Most of the US students tend to prefer work in our dining room. We have been in business for over 15 years and we serve delicious food. Our web site (see www.scargocafe.com) will give you a good impression of what we are like. We have a live web camera that features one of our 3 dining rooms and the area in our kitchen where the food comes out. Although the work here is fun, it is also very hard. Our staff works hard to prepare many meals in a short period of time for a large number of people. Our kitchen can be very hot in the summer. The hours are long and hot, but the food and friends are wonderful. We promise that you will enjoy clean and safe surroundings, good food, good friends, and good fun.

We are slowly expanding so you might even enjoy our dance floor Fridays and Saturdays!**Description of Area:** Crisfield, in southern Somerset County, Maryland, is located at the mouth of the Little Annemessex River at Tangier Sound. Crisfield's history is based in the seafood industry and the town features many excellent seafood restaurants. Home to the annual National Hard Crab Derby, Crisfield is proud of its ties to the Chesapeake Bay. On the waterfront at Somers Cove Marina, you can visit the Crisfield Historical Museum and Visitor's Center. The museum has a nice collection of artifacts and old photos from Crisfield's past, as well

includes a visit to a crab and oyster processing plant where you can see skilled workers pick crabs and shuck oysters with lightening speed.

Crisfield's waterfront has undergone some recent changes. Waterfront condominiums have been constructed on the far western side of town, near the dock. Some road improvements to the main street coming into town have also been made. Despite these, changes, Crisfield still looks like a working waterfront town. Seafood industries still line much of the waterfront. There are also some empty buildings, testament that the seafood industry isn't as good to Crisfield as it once was.

This town is most lively when they are hosting one of their many events at Somers Cove Marina. In addition to the annual Hard Crab Derby, Crisfield hosts many other annual festivals. These annual events feature local seafood and are a great opportunity to visit this authentic Chesapeake Bay waterfront town. Popular festivals include the Soft Shell Spring Fair, the J. Millard Tawes Crab and Clam Bake, and the Terrapin Sands Fish Fry. Visit the Crisfield Chamber of Commerce website for event information.

Cruises to Tangier Island and Smith Island depart daily. These cruises are popular outings that give passengers an opportunity to visit these remote island communities. Learn more about these island and how to get to them at our Tangier Island and Smith Island pages.

Nearby Janes Island State Park offers hiking, camping, picnicking, swimming, boating, and fishing. This 3,100 acre park includes beaches, expansive wetlands, and easy access to Tangier and Pocomoke Sounds and the Chesapeake Bay. The park has an extensive system of water trails that are popular with kayakers.

Another option for exploring the area by water is to rent a pontoon or fishing boat from Crisfield Boat Rentals.

Description of Business: The Inn on Mackinac is a family owned business that has been operating since the mid 70's. Our customer base is made up of tourists who come to the Straits of Mackinac to enjoy the beauty and rich history it holds.

Description of Area: It's a small island located in Lake Huron in the eastern Straits of Mackinac which are located in northern Michigan in the United States. It is an island but also a town named Mackinac Island, Michigan. It is between Michigan's Upper and Lower Peninsulas and is east of the famous Mackinac Bridge that connects these two peninsulas together. It is only about four square miles in land area and approximately 8 miles in circumference. You can reach the Island by ferry from Mackinaw City, Michigan or St. Ignace, which is in Michigan's Upper Peninsula. It is about 3 miles from either town and the ferries make it a quick trip in about 15-20 minutes. The first inhabitants of Mackinac Island were Native Americans of the Ojibwa tribes around AD 900. Mackinac Island information reflects that in the past it was a place for local Native American tribes to convene to make offerings to Gitche Manitou and to bury their tribal chiefs. Mackinac Island information shows a history rich with Native American tribes plus French-Canadians, British and Americans who built forts, fought battles and created entrepreneurial businesses such as fur-trading which created an industry that brought pioneers and missionaries to the area. Mackinac Island State Park covers approximately 80% of the land on Mackinac Island and is considered one of the nicest National State Parks in the U.S. due to the natural beauty of the island but also the quality of the historic preservation that has taken place through the diligent hard work by its year-round community, summer residents and the State Park commissioners and staff.

Description of Business: We are the YMCA Conference Center for the Southeast U.S. We were founded in 1906. Although we operate year-round, we are busiest during the months of June and July. We are located in the Blue Ridge Mountains of North Carolina. Our summer staff come from all over the United States and around the world.

Description of Area: We are located in Black Mountain, NC. We are surrounded by great natural beauty. We are about 2 miles from Black Mountain. It is a quaint small town but has grocery stores, restaurants, etc. The nearest Walmart and Mall are 15 miles away in Asheville, NC. There is public transportation to Asheville, but it only runs two times per day. Normally, staff ride with other summer staff who own cars. But Blue Ridge also provides a driver and van for regular trips to Asheville (at least once per week). Staff who love nature will enjoy these surroundings. Those who need constant "noise" or big big-city living, probably would not be content at Blue Ridge Assembly.

Job Title: Housekeeping and Kitchen help

Work Description: The Housekeeping position facilitates the smooth transition between retreats. Our housekeepers should be friendly dependable people who can work well with others. We are a one-of-a-kind business, and we all work hard and go out of our way to ensure that at the end of the day the retreat participants' experience here is uniquely transformational and healing. Our seasonal housekeepers work together to clean meeting spaces and turn over guest rooms at the end of each retreat. Since we frequently turn over a large number of rooms in a short amount of time, efficiency and attention to detail are crucial traits for this position.

Hands-on cleaning includes: making the beds, vacuuming the floors, cleaning the bathrooms, emptying the trash and dusting as needed. Typically, retreats begin on Fridays and end on Sundays, but there are longer retreats and overlapping retreats as well. For weeklong retreats our housekeepers do a light midweek refresh of rooms. Occasionally rooms need to be turned over the same day (when a group checks out in the morning and an incoming group arrives later in the day). On these days, extra housekeepers are brought in to ensure everything is prepared on time, especially for those few weekends when we need to turn over the entire facility.

- Restock cleaning supplies
- Maintain inventory, restock linen closets and keep organized.
- Make beds
- Distribute face, hand, and body towels

With just a handful of employees preparing three meals a day for 30 -100 people, it is crucial that the kitchen staff be team players who are dependable and reliable and can maintain a positive attitude. Throughout most of the season, there is a morning shift and an afternoon/evening shift, with both shifts' hours varying slightly according to the needs of each specific event. Although occasionally we prepare fish or chicken, our food is mostly gourmet vegetarian—much of which is organic and some of which comes from our own organic garden!

We all wear many hats at Menla. Thus, in general, flexibility, friendliness, and a willingness to do whatever it takes as a team to get everything done are absolutely essential. We encourage our kitchen staff to be mindful of the energy they put into the food. Our guests consistently rave about their dining experience at Menla. We are a one-of-a-kind business, and we all go out of our way to ensure that at the end of the day the retreat participants' experience here is uniquely transformational and healing.

Cooking at Menla is a unique experience. It can be exciting, challenging, and truly rewarding. The Cooks work closely with our Chef to execute the menu and ensure an all around good dining experience for our guests. They check in with guests and address individual dietary needs as they arise.

The Dishwashers set up and break down the buffet, bus dirty dishes, clean and put them away, and help with prep work whenever possible.

Description of Business: Historians have stated, The Park Hotel was the first hotel in the local area that offered "Beds having spring mattresses," and not the traditional straw filled beds It also had a dining room that sat 100 people. All the guest rooms are located on the second and third floors. One of the most popular rooms is the large front room that has three windows overlooking the downtown park and harbor. One of the 26 rooms was used when the bath facilities were modernized in the 1980's. This historic hotel is much like a period museum with the modern comforts of a small island resort hotel. Many local activities have taken place here over the year's, including community dinners, business meetings and awards ceremonies. We're proud of our community.

Utah's brightly colored canyons, vast deserts, towering cliffs and rugged rock formations offer a once-in-a-lifetime experience. Our charming Bryce hotel gives you the ideal location to see it all with well-appointed accommodations and an array of modern amenities for enjoying a relaxing and unforgettable Utah retreat.**Description of Area:** Bryce Canyon is unique that it is not a "real canyon" carved by flowing water, but rather a giant natural amphitheater created by erosion along the eastern side of the Paunsaugunt Plateau. Bryce Amphitheater, which is 12 miles long, 3 miles wide and 800 feet deep, is the largest of all the amphitheaters in the park. Water is the active ingredient here, but in the form of "frost-wedging" and chemical weathering. For two hundred days a year the temperature goes above and below freezing every day. During the day, melt water seeps into fractures only to freeze at night, expanding by nine percent. Now as ice, it exerts a tremendous force (2,000-20,000 pounds per square inch). Over time this "frost-wedging" shatters and pries rock apart. In addition, rain water, which is naturally acidic, slowly dissolves the limestone, rounding off edges and washing away debris.

Bryce Canyon is difficult to beat when it comes to recreation. Hiking, biking, river rafting, photography are just a few of the many things that are available.
